CENTOS Central Logistics GmbH in Winsen/Luhe near Hamburg offers professional logistics services like warehouse business, handling of FCL/LCL and other cargo, palletizing and many other services which are requested from our clients. The entire areas of our warehouse building are 24.000 m². We are using 8.000 m² with a rack system and in 16.000 m² the goods are storing on floor by using marked location areas. Our buildings are heated and/or air-conditioned. Besides we have installed up-to-date equipment and computerized warehouse management systems. The whole stocks are highly secured by several safety systems.

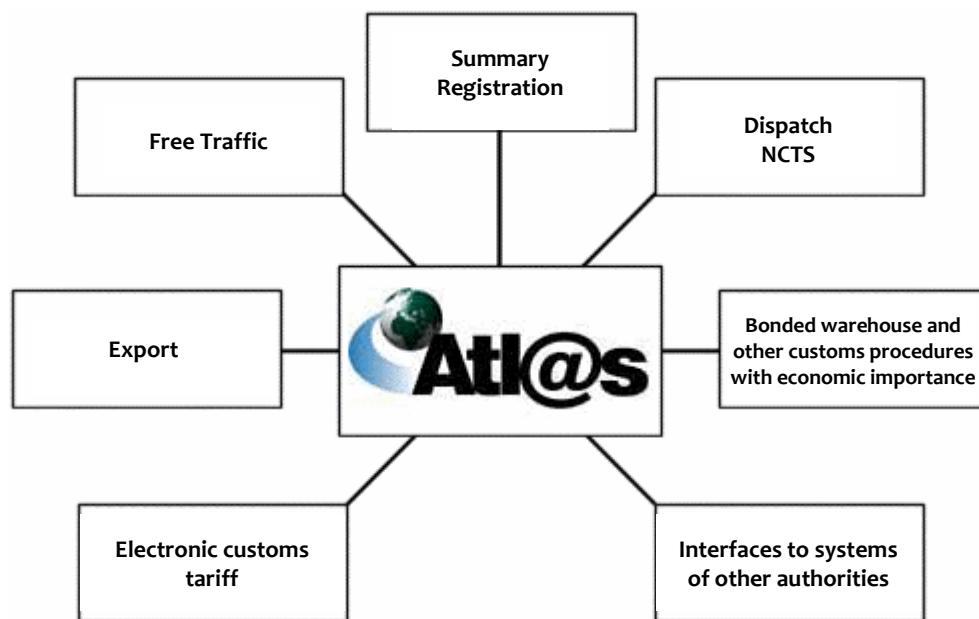

We are able to handle a large amount of cargo as well as goods with special requirements in a fast and safe manner due to a different variety of equipment. As we have developed our own warehouse-management-system, we are able to monitor the complete goods flow.

Our logistics service includes the un- and reloading of containers and trucks by our well-educated warehouse staff, as well as palletizing, sorting, repacking and distributing the goods to all recipients in collaboration with professional carriers. On our container-yard can be stored up to 150 units, and as we have a container stacker available all the time, we are able to provide a fluently handling of your goods.

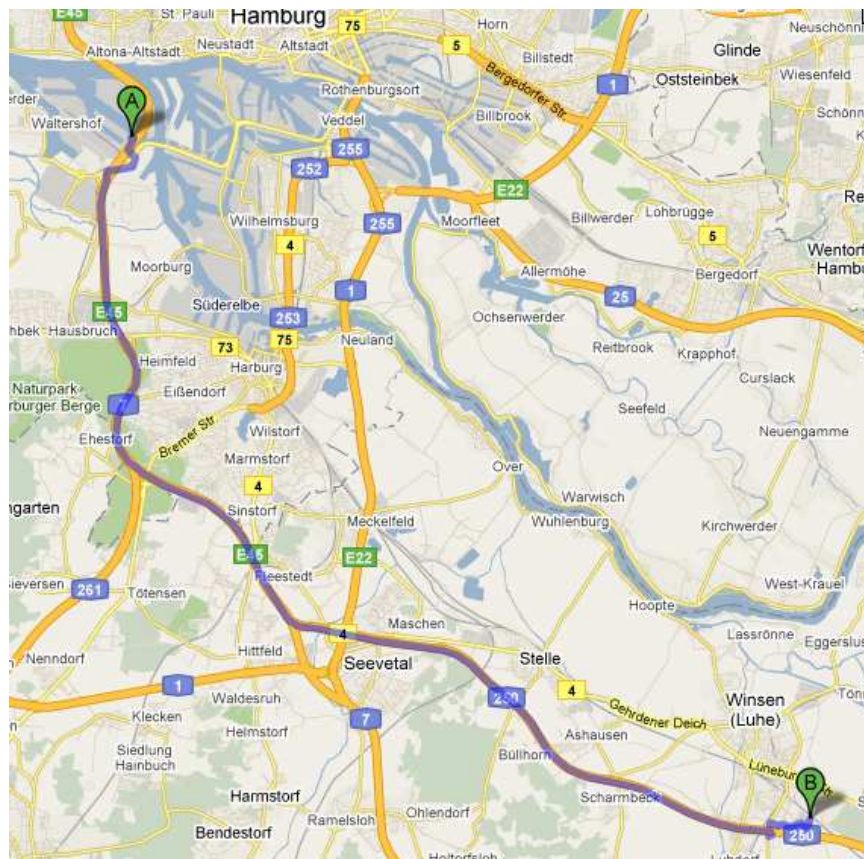

All warehouse buildings including the entire container-yard are registered as a customs bonded warehouse. Due to our long-term experiences in customs procedures and by using the online-customs-system (ATLAS) we reliably handle the importing, exporting, transporting and clearing of customs goods.

Our warehouse facilities are located nearby the Hamburg sea- and airport which allows us a quick transportation of all sea- and airfreight cargoes.

Due to the direct connection to the highway we have perfect transport conditions and are able to avoid any kind of possible delay.
